

The Impact of COVID-19 on Musicians Social Connectedness

Researchers: Kathleen Howcroft, BA (c); Kestrel McNeill, BHSc, MSc (c); Cindy Tran, BSc, PhD (c); Ranil Sonnadara, PhD
Presented By: Kathleen Howcroft, BA (c)

Social connectedness:

- Characterized as a type of belongingness (or lack thereof) and is considered an attribute and sense of the self relation to the social world

Research Questions

- 1) Explores the relationship between social connectedness and Mental health in young musicians.
- 2) Examines how social connections developed through music affect mental health, performance, and social relationships.
- 3) Explores how these relationships and the musician's mental health have been impacted by COVID-19.

Parallel Convergent Mixed Methods

Quantitative

Each participant filled out an online survey at time 1 and time 2

Qualitative

Each participant was interviewed at time 1 and time 2
